---MORE---

Visiting Homemaker is a nonprofit agency that, for more than fifty years, has been providing home care services so that people throughout Bergen County can remain living safely in the comfort and dignity of home. In light of the current economic recession and high unemployment, the agency has redoubled its efforts to provide charity care so that people can be cared for at home even if they cannot afford the cost of the service. The new board members join the existing Board of Trustees members in their commitment to ensuring that the highest quality home care remains widely available.

Visiting Homemaker helps individuals who are unable to care for themselves as well as families who are struggling to cope with illness at home. It provides individualized services including certified home health aides, shopping, errand and housekeeping services, help with hospital or post surgery discharge, help so that a disabled person can attend special family occasions, and other home care services.
